## Objective

The fund seeks long-term growth of capital.

## Strategy

Countries and currencies matter when it comes to investing in Emerging Markets. The team's process, therefore, starts with country selection, balanced with fundamental bottom up stock selection. The portfolio is managed with the aim to outperform across varying market conditions. Relevant environment, social and governance issues are taken into consideration during the process. Portfolio management also actively monitors the fund's portfolio, including an ongoing assessment of the portfolio's risks.
