## Morningstar® Rating<sup>2</sup>

Morningstar Muni National Interm Category

Overall rating (as of 3/31/24)

Class S 

Overall Morningstar ratings 4 stars; 261 funds. Three year rating 4 stars; 261 funds. Five year rating 4 stars; 238 funds. Ten year rating 4 stars; 177 funds. Morningstar ratings are based on risk-adjusted performance. Source: Morningstar, Inc. **Ratings are historical and do not guarantee future results. Ratings for other share classes may vary.**

## Objective

The fund seeks to provide a high level of income exempt from regular federal income taxes and seeks to limit principal fluctuation.

## Strategy

Under normal circumstances, the fund invests at least 80% of net assets in securities issued by municipalities across the United States and in other securities whose income is free from regular federal income tax. The fund may invest up to 20% of net assets in securities whose income is subject to the federal alternative minimum tax (AMT). The fund targets a duration in the 4-6 year range.

## Expense ratio (as of latest prospectus)

Class	Net	Gross	Contractual Waiver
A	0.74%	0.78%	09/30/2024
C	1.49%	1.56%	09/30/2024
S	0.49%	0.63%	09/30/2024
INST	0.49%	0.55%	09/30/2024

Without a waiver, returns would have been lower and any rankings/ratings might have been less favorable.

## Average annual total returns\* (as of 3/31/24)

<sup>1</sup> Bloomberg Municipal Bond 1-15 Year Blend (1-17) Index represents municipal bonds with maturities between 1 and 17 years.

<sup>2</sup> ©2024 Morningstar. All Rights Reserved. The information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. Past performance is no guarantee of future results. The Morningstar Rating™ for funds, or 'star rating', is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The Morningstar Rating does not include any adjustment for sales loads. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10 year (if applicable) Morningstar Rating metrics. The weights are 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods.

<sup>3</sup> Effective maturity is the weighted average of the bonds held by the fund taking into consideration any available maturity shortening features. Modified duration to worst is the approximate percentage change in a bond's price for a 100 basis points change in yield. A bond's duration is computed using the bond's nearest call date or maturity, whichever comes first. Average life is an estimate of the number of terms to maturity, taking the possibility of early payments into account. Final maturity is the date the principal of a municipal security becomes due and payable to the bondholder. Turnover rate is the rate of trading activity in a fund's portfolio of investments, equal to the lesser of purchases or sales, for a year, divided by average total assets for that year.

<sup>5</sup>Source: Morningstar, Inc. as of 02/29/2024.

<sup>4</sup> Credit quality represents the higher rating of either Moody's Investors Service, Fitch Ratings or Standard & Poor's and is their opinion as to the quality of the securities they rate. Credit quality does not remove market risk and is subject to change. Junk bonds are any bond that carries a rating lower than BB is said to be speculative or a 'junk bond'.

**War, terrorism, sanctions, economic uncertainty, trade disputes, public health crises and related geopolitical events have led and, in the future, may lead to significant disruptions in U.S. and world economies and markets, which may lead to increased market volatility and may have significant adverse effects on the fund and its investments.**

**Fund risk:** Bond investments are subject to interest-rate, credit, liquidity, and market risks to varying degrees. When interest rates rise, bond prices generally fall. Credit risk refers to the ability of an issuer to make timely payments of principal and interest. Investments in lower-quality ("junk bonds") and non-rated securities present greater risk of loss than investments in higher-quality securities. Municipal securities are subject to the risk that litigation, legislation or other political events, local business or economic conditions or the bankruptcy of the issuer could have a significant effect on an issuer's ability to make payments of principal and/or interest. The market for municipal bonds may be less liquid than for taxable bonds and there may be less information available on the financial condition of issuers of municipal securities than for public corporations. Although the fund seeks income that is exempt from federal income taxes, a portion of the fund's distributions may be subject to federal, state, and local taxes, including the alternative minimum tax. Please read the prospectus for details.
