

DWS New York Tax-Free Income Fund

Eligible for \$250,000 NAV purchase privilege†

Q1 | 3.31.24

Share Class: A | KNTAX C | KNTCX S | SNWYX INST | DNTIX

Objective

The fund seeks a high level of current income that is exempt from New York State and New York City personal income taxes and federal income taxes.

Strategy

Under normal circumstances, the fund invests at least 80% of net assets, plus the amount of any borrowings for investment purposes, in municipal securities whose income is free from regular federal and New York State personal income tax. In addition, the fund invests at least 65% of net assets in municipal securities and other securities that are exempt from New York City personal income taxes. The fund may invest up to 20% of net assets in securities whose income is subject to the federal alternative minimum tax (AMT). The fund targets a duration in the 5-9 year range.

Expense ratio (as of latest prospectus)

Class	Net	Gross	Contractual Waiver
A	0.80%	0.91%	11/30/2024
C	1.55%	1.72%	11/30/2024
S	0.55%	0.70%	11/30/2024
INST	0.55%	0.68%	11/30/2024

Without a waiver, returns would have been lower and any rankings/ratings might have been less favorable.

Average annual total returns* (as of 3/31/24)

Performance is historical and does not guarantee future results. Investment returns and principal fluctuate so your shares may be worth more or less when redeemed. Current performance may be lower or higher than the performance data quoted. Please visit www.dws.com for the fund's most recent month-end performance. Fund performance includes reinvestment of all distributions. Index returns do not reflect fees or expenses and it is not possible to invest directly in an index. Not all share classes are available to all investors. A minimum investment of \$1 million is required to open an account for Institutional shares.

* The fund's performance prior to inception reflects that of Class A shares. Returns prior to inception reflect the original share class performance, adjusted for higher operating expenses and/or the maximum sales charge.

† If you're investing \$250,000 or more, you may be eligible to purchase Class A shares of this fund without a sales charge. However, redemptions within 12 months may be subject to sales charges. See the prospectus for details.

¹ Bloomberg Municipal Bond Index tracks the performance of investment-grade, fixed-rate municipal bonds with maturities greater than two years.

² The Bloomberg New York Exempt Municipal Bond Index includes investment-grade, tax-exempt and fixed-rate bonds issued in the state of New York; all securities have long-term maturities (greater than two years) and are selected from issues larger than \$50 million.

⁴ Effective maturity is the weighted average of the bonds held by the fund taking into consideration any available maturity shortening features. Modified duration to worst is the approximate percentage change in a bond's price for a 100 basis points change in yield. A bond's duration is computed using the bond's nearest call date or maturity, whichever comes first. Average life is an estimate of the number of terms to maturity, taking the possibility of early payments into account. Final maturity is the date the principal of a municipal security becomes due and payable to the bondholder. Turnover rate is the rate of trading activity in a fund's portfolio of investments, equal to the lesser of purchases or sales, for a year, divided by average total assets for that year.

⁵Source: Morningstar, Inc. as of 02/29/2024.

⁵ Credit quality represents the higher rating of either Moody's Investors Service, Fitch Ratings or Standard & Poor's and is their opinion as to the quality of the securities they rate. Credit quality does not remove market risk and is subject to change. Junk bonds are any bond that carries a rating lower than BB is said to be speculative or a 'junk bond'.

War, terrorism, sanctions, economic uncertainty, trade disputes, public health crises and related geopolitical events have led and, in the future, may lead to significant disruptions in U.S. and world economies and markets, which may lead to increased market volatility and may have significant adverse effects on the fund and its investments.

Fund risk: Bond investments are subject to interest-rate, credit, liquidity and market risks to varying degrees. When interest rates rise, bond prices generally fall. Credit risk refers to the ability of an issuer to make timely payments of principal and interest. Investments in lower-quality ("junk bonds") and non-rated securities present greater risk of loss than investments in higher-quality securities. Municipal securities are subject to the risk that litigation, legislation or other political events, local business or economic conditions or the bankruptcy of the issuer could have a significant effect on an issuer's ability to make payments of principal and/or interest. The market for municipal bonds may be less liquid than for taxable bonds and there may be less information available on the financial condition of issuers of municipal securities than for public corporations. Investing in derivatives entails special risks relating to liquidity, leverage and credit that may reduce returns and/or increase volatility. Although the fund seeks income that is exempt from New York and federal income taxes, a portion of the fund's distributions may be subject to federal, state and local taxes, including the alternative minimum tax. This fund is non-diversified and can take larger positions in fewer issues, increasing its potential risk. Please read the prospectus for details.

Consider the investment objective, risks, charges and expenses carefully before investing. For a summary prospectus, or prospectus that contains this and other information, download one from www.dws.com or talk to your financial representative. Read the prospectus carefully before investing.
