This report must be preceded or accompanied by a prospectus. To obtain a summary prospectus, if available, or prospectus for any of our funds, visit dws.com. We advise you to consider a fund's objectives, risks, charges and expenses carefully before investing. The summary prospectus and prospectus contain this and other important information about each fund. Please read the prospectus carefully before you invest.

The brand DWS represents DWS Group GmbH & Co. KGaA and any of its subsidiaries such as DWS Distributors, Inc. which offers investment products or DWS Investment Management Americas, Inc. and RREEF America L.L.C. which offer advisory services.

NOT FDIC/NCUA INSURED NO BANK GUARANTEE MAY LOSE VALUE
NOT A DEPOSIT NOT INSURED BY ANY FEDERAL GOVERNMENT AGENCY

You could lose money by investing in the Funds. Although the Funds seek to preserve the value of your investment at \$1.00 per share, each Fund cannot guarantee it will do so. The share price of money market funds can fall below the \$1.00 share price. The DWS Tax-Exempt Portfolio may impose a fee upon sale of your shares or may temporarily suspend your ability to sell shares if the DWS Tax-Exempt Portfolio's liquidity falls below required minimums because of market conditions or other factors. An investment in the Funds is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Funds' sponsor has no legal obligation to provide financial support to the Funds, and you should not expect that the sponsor will provide financial support to the Funds at any time. You should not rely on or expect the Advisor to enter into support agreements or take other actions to maintain a fund's \$1.00 share price. The credit quality of the Fund's holdings can change rapidly in certain markets, and the default of a single holding could have an adverse impact on a fund's share price. The Fund's share price can also be negatively affected during periods of high redemption pressures and/or illiquid markets. The actions of a few large investors in one class of shares in a fund may have a significant adverse effect on the share prices of all classes of shares within that fund. Please read the prospectus for specific details regarding each Fund's risk profile.

War, terrorism, sanctions, economic uncertainty, trade disputes, public health crises, natural disasters, climate change and related geopolitical events have led, and, in the future, may lead, to significant disruptions in U.S. and world economies and markets, which may lead to increased market volatility and may have significant adverse effects on the Fund and its investments.

Market Overview

All performance information below is historical and does not guarantee future results. Investment return and principal fluctuate, so your shares may be worth more or less when redeemed. Current performance may differ from performance data shown. Please visit [dws.com](https://www.dws.com) for the Funds' most recent month-end performance. The 7-day current yield refers to the income paid by the Funds over a 7-day period expressed as an annual percentage rate of each Fund's shares outstanding. Yields fluctuate and are not guaranteed.

During the 12-month period that ended on April 30, 2023, yields across the money market yield curve moved higher as the U.S. Federal Reserve (Fed) raised its benchmark overnight lending rate dramatically as it sought to rein in persistently high inflation.

Entering the period, the Fed had begun to raise the fed funds rate, while signaling it would soon begin reducing its holdings of Treasury securities and agency mortgage-backed securities (MBS) by reinvesting only part of the proceeds from maturing securities. U.S. consumer price inflation would peak at 9.1% in June before receding slightly over the remainder of the year. The Fed implemented a series of sharp rate hikes of between 50 and 75 basis points between May and December of 2022, bringing the fed funds target to a range of 4.25% to 4.50%, its highest level since the fall of 2007.

“During the 12-month period that ended on April 30, 2023, yields across the money market yield curve moved higher as the U.S. Federal Reserve (Fed) raised its benchmark overnight lending rate dramatically as it sought to rein in persistently high inflation.”

As inflation showed signs of moderating entering 2023, markets became increasingly optimistic that the Fed and other leading central banks were poised to stop raising interest rates. January saw Treasury yields ease off their recent highs on the outlook for easier monetary policy. On February 1, the Fed raised short term rates by a comparatively moderate 25 basis points, to a target range of 4.50% to 4.75%.

March of 2023 saw the failure of a pair of U.S. banks and the collapse of European giant Credit Suisse raise the prospect of a financial crisis. The

Fed responded by initiating a new lending facility to support bank liquidity while the market began to price in multiple cuts in fed funds before year end. The outlook for easier monetary policy and the flight to safety brought about by the specter of a banking crisis led longer-term money market rates to drift lower. At its March 23 meeting the Fed raised the fed funds target by another quarter-point to a range of 4.75%-5.0%. The rate hike was well-received by financial markets as a signal that the Fed believed the financial system remained on generally sound footing.

As of April 30, 2023, yields of one-month, six-month and one-year Treasury bills were 4.35%, 5.06% and 4.80%, respectively, versus 0.37%, 1.41% and 2.10%, respectively, as of April 30, 2022 (source: U.S. Department of the Treasury).

Positive Contributors to Fund Performance

Investment Objective

DWS Government & Agency Securities Portfolio seeks to provide maximum current income consistent with stability of capital.

Within the DWS Government & Agency Securities Portfolio, we were able to maintain what we believe to be a competitive yield for the Fund during the annual period ended April 30, 2023. During the period, the Fund held a large percentage of portfolio assets in agency and Treasury floating-rate securities to take advantage of increases in interest rates. At the same time, the Fund invested in overnight agency repurchase agreements (“repos”) for liquidity and looked for yield opportunities from three- to six-month agency and Treasury securities.

Investment Objective

DWS Tax-Exempt Portfolio seeks to provide maximum current income that is exempt from federal income taxes to the extent consistent with stability of capital.

For the DWS Tax Exempt Portfolio, we were able to maintain what we believe to be a competitive yield for the Fund during the annual period ended April 30, 2023. During the period, we emphasized floating rate VRDNs (Variable Rate Demand Notes) in light of our expectations for short-term tax-exempt rates to move higher alongside Fed rate hikes and

for the Fed to keep its benchmark rate at elevated levels for a relatively extended period. (The interest rate of variable rate securities adjusts periodically based on indices such as the Securities Industry and Financial Market Association Index of Variable Rate Demand Notes.)

Negative Contributors to Fund Performance

For the DWS Government & Agency Securities Portfolio, to meet liquidity purposes throughout the day, we execute our final trades at the market close when repo collateral can be scarce. As a result, some of these end-of-day trades can pay a lower yield and detract from overall performance.

For the DWS Tax Exempt Portfolio, the types of securities that we were investing in tended to have lower yields than issues carrying more risk. We preferred to be cautious during a time of market uncertainty. In the end, this cost the Fund some yield, but we believe that this represented a prudent approach to preserving principal.

Outlook and Positioning

The Fed appears to be approaching the end of its current rate hiking cycle, and the market has begun to price in rate cuts over the second half of 2023. While the course of Fed policy is uncertain and subject to changes in conditions, we have been evaluating opportunities to extend portfolio duration in order to lock in higher yields.

We have continued to emphasize what we believe to be the highest credit quality within the Fund, while seeking to maintain conservative investment strategies and standards under the current market conditions. More broadly speaking, we have continued to apply a careful approach while seeking a competitive yield for shareholders.

Fund Performance (as of April 30, 2023)

Performance is historical and does not guarantee future results. Current performance may be lower or higher than the performance data quoted.

You could lose money by investing in the Funds. Although the Funds seek to preserve the value of your investment at \$1.00 per share, each Fund cannot guarantee it will do so. The DWS Tax-Exempt Portfolio may impose a fee upon sale of your shares or may temporarily suspend your ability to sell shares if the DWS Tax-Exempt Portfolio's liquidity falls below required minimums because of market conditions or other factors. An investment in the Funds is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Funds' sponsor has no legal obligation to provide financial support to the Funds, and you should not expect that the sponsor will provide financial support to the Funds at any time.

	7-Day Current Yield
DWS Government & Agency Securities Portfolio — Service Shares	3.92%*
DWS Tax-Exempt Portfolio — Service Shares	2.43%*
Equivalent Taxable Yield	4.10%**

Yields are historical, will fluctuate and do not guarantee future performance. The 7-day current yield refers to the income paid by the Funds over a 7-day period expressed as an annual percentage rate of the Funds' shares outstanding. For the most current yield information, visit our Web site at dws.com.

- * The 7-Day Current Yield would have been 3.75% and 2.23% for DWS Government & Agency Securities Portfolio — Service Shares and DWS Tax-Exempt Portfolio — Service Shares respectively, had certain expenses not been reduced.
- ** The equivalent taxable yield allows you to compare with the performance of taxable money market funds. For the DWS Tax-Exempt Portfolio, the equivalent taxable yield is based upon the marginal income tax rate of 40.8%. Income may be subject to local taxes and, for some investors, the alternative minimum tax.

Portfolio Management Team

A group of investment professionals is responsible for the day-to-day management of the Fund. These investment professionals have a broad range of experience managing money market funds.

The views expressed reflect those of the portfolio management team only through the end of the period of the report as stated on the cover. The management team's views are subject to change at any time based on market and other conditions and should not be construed as a recommendation. Past performance is no guarantee of future results. Current and future portfolio holdings are subject to risk.

Terms to Know

The **yield curve** is a graphical representation of how yields on bonds of different maturities compare. Normally, yield curves slant upward, as bonds with longer maturities typically offer higher yields than short-term bonds.

Floating-rate securities are investments with interest payments that adjust periodically based upon a predetermined benchmark interest rate.

Repurchase Agreements (Repos) are agreements between a seller and a buyer, usually of government securities, where the seller agrees to repurchase the securities at a given price and usually at a stated time. Repos are widely used money market instruments.

Duration, which is expressed in years, measures the sensitivity of the price of a bond or bond fund to a change in interest rates.

Portfolio Summary

(Unaudited)

DWS Government & Agency Securities Portfolio

Asset Allocation (As a % of Investment Portfolio)	4/30/23	4/30/22
Repurchase Agreements	75%	53%
Government & Agency Obligations	25%	47%
	100%	100%

Weighted Average Maturity	4/30/23	4/30/22
Cash Account Trust — DWS Government & Agency Securities Portfolio	10 days	23 days
iMoneyNet Money Fund Average™ — Gov't & Agency Retail*	17 days	26 days

* The Fund is compared to its respective iMoneyNet Money Fund Average category: Gov't & Agency Retail — Category includes the most broadly based of the government retail funds. These funds may invest in U.S. Treasury securities, securities issued or guaranteed by the U.S. Government or its agencies or instrumentalities.

Weighted average maturity, also known as effective maturity, is the weighted average of the maturity date of bonds held by the Fund taking into consideration any available maturity shortening features.

Portfolio holdings and characteristics are subject to change.

For more complete details about the Fund's investment portfolio, see page 10. A quarterly Fact Sheet is available on dws.com or upon request.

Fair Value Measurements

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in three broad levels. Level 1 includes quoted prices in active markets for identical securities. Level 2 includes other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds and credit risk). Level 3 includes significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments). The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities. Securities held by the Fund are reflected as Level 2 because the securities are valued at amortized cost (which approximates fair value) and, accordingly, the inputs used to determine value are not quoted prices in an active market.

The following is a summary of the inputs used as of April 30, 2023 in valuing the Fund's investments. For information on the Fund's policy regarding the valuation of investments, please refer to the Security Valuation section of Note A in the accompanying Notes to Financial Statements.

Assets	Level 1	Level 2	Level 3	Total
Investments in Securities (a)	\$—	\$ 444,823,618	\$—	\$ 444,823,618
Repurchase Agreements	—	1,317,860,000	—	1,317,860,000
Total	\$—	\$1,762,683,618	\$—	\$1,762,683,618

(a) See Investment Portfolio for additional detailed categorizations.

Portfolio Summary

(Unaudited)

DWS Tax-Exempt Portfolio

Asset Allocation (As a % of Investment Portfolio)	4/30/23	4/30/22
Variable Rate Demand Notes	78%	76%
Tax-Exempt Commercial Paper	13%	13%
Variable Rate Demand Preferred Shares	8%	10%
Floating-Rate Notes	1%	1%
	100%	100%

Weighted Average Maturity	4/30/23	4/30/22
Cash Account Trust — DWS Tax-Exempt Portfolio	8 days	9 days
iMoneyNet Money Fund Average™ — Tax-Free National Retail*	15 days	16 days

* The Fund is compared to its respective iMoneyNet Money Fund Average category: Tax-Free National Retail — Category includes retail funds that invest in obligations of tax-exempt entities, including state and municipal authorities.

Weighted average maturity, also known as effective maturity, is the weighted average of the maturity date of bonds held by the Fund taking into consideration any available maturity shortening features.

Portfolio holdings and characteristics are subject to change.

For more complete details about the Fund's investment portfolio, see page 20. A quarterly Fact Sheet is available on [dws.com](https://www.dws.com) or upon request.

(a) Variable rate demand notes and variable rate demand preferred shares are securities whose interest rates are reset periodically (usually daily mode or weekly mode) by remarketing agents based on current market levels, and are not directly set as a fixed spread to a reference rate. These securities may be redeemed at par by the holder through a put or tender feature, and are shown at their current rates as of April 30, 2023. Date shown reflects the earlier of demand date or stated maturity date.

(b) Floating rate security. These securities are shown at their current rate as of April 30, 2023.

144A: Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.

AMT: Subject to alternative minimum tax.

Fair Value Measurements

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in three broad levels. Level 1 includes quoted prices in active markets for identical securities. Level 2 includes other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds and credit risk). Level 3 includes significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments). The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities. Securities held by the Fund are reflected as Level 2 because the securities are valued at amortized cost (which approximates fair value) and, accordingly, the inputs used to determine value are not quoted prices in an active market.

The following is a summary of the inputs used as of April 30, 2023 in valuing the Fund's investments. For information on the Fund's policy regarding the valuation of investments, please refer to the Security Valuation section of Note A in the accompanying Notes to Financial Statements.

Assets	Level 1	Level 2	Level 3	Total
Municipal Investments (a)	\$—	\$137,709,000	\$—	\$137,709,000
Total	\$—	\$137,709,000	\$—	\$137,709,000

(a) See Investment Portfolio for additional detailed categorizations.

Notes to Financial Statements

A. Organization and Significant Accounting Policies

Cash Account Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company organized as a Massachusetts business trust.

The Trust offers two funds: DWS Government & Agency Securities Portfolio and DWS Tax-Exempt Portfolio (each a "Fund" and together, the "Funds"). These financial statements report on DWS Government & Agency Securities Portfolio and DWS Tax-Exempt Portfolio.

DWS Government & Agency Securities Portfolio offers four classes of shares: DWS Government & Agency Money Fund, DWS Government Cash Institutional Shares, Government Cash Managed Shares and Service Shares.

DWS Tax-Exempt Portfolio offers six classes of shares: DWS Tax-Exempt Cash Premier Shares, DWS Tax-Exempt Money Fund, DWS Tax-Free Money Fund Class S, Service Shares, Tax-Exempt Cash Managed Shares and Tax-Free Investment Class. DWS Tax-Exempt Portfolio may impose liquidity fees on redemptions and/or temporarily suspend (gate) redemptions if the Fund's liquidity falls below required minimums because of market conditions or other factors.

The financial highlights for all classes of shares, other than Service Shares, are provided separately and are available upon request.

Each Fund's investment income, realized gains and losses, and certain Fund-level expenses and expense reductions, if any, are borne pro rata on the basis of relative net assets by the holders of all classes of shares of that Fund, except that each class bears certain expenses unique to that class such as distribution and service fees, services to shareholders and certain other class-specific expenses. Differences in class-level expenses may result in payment of different per share dividends by class. All shares of the Trust have equal rights with respect to voting subject to class-specific arrangements.

Each Fund's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") which require the use of management estimates. Actual results could differ from those estimates. Each Fund qualifies as an investment company under Topic 946 of Accounting Standards Codification of U.S. GAAP. The policies described below are followed consistently by the Funds in the preparation of their financial statements.

Security Valuation. Various inputs are used in determining the value of the Funds' investments. These inputs are summarized in three broad levels.

Level 1 includes quoted prices in active markets for identical securities. Level 2 includes other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds and credit risk). Level 3 includes significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments). The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities.

The Funds value all securities utilizing the amortized cost method permitted in accordance with Rule 2a-7 under the 1940 Act and certain conditions therein. Under this method, which does not take into account unrealized capital gains or losses on securities, an instrument is initially valued at its cost and thereafter assumes a constant accretion/ amortization rate to maturity of any discount or premium. Securities held by the Funds are reflected as Level 2 because the securities are valued at amortized cost (which approximates fair value) and, accordingly, the inputs used to determine value are not quoted prices in an active market.

Disclosure about the classification of fair value measurements is included in a table following each Fund's Investment Portfolio.

Repurchase Agreements. Each Fund may enter into repurchase agreements, under the terms of a Master Repurchase Agreement, with certain banks and broker/dealers whereby each Fund, through its custodian or a sub-custodian bank, receives delivery of the underlying securities, the amount of which at the time of purchase and each subsequent business day is required to be maintained at such a level that the market value is equal to at least the principal amount of the repurchase price plus accrued interest. The custodial bank or another designated sub-custodian bank holds the collateral in a separate account until the agreement matures. If the value of the securities falls below the principal amount of the repurchase agreement plus accrued interest, the financial institution deposits additional collateral by the following business day. If the financial institution either fails to deposit the required additional collateral or fails to repurchase the securities as agreed, the Funds have the right to sell the securities and recover any resulting loss from the financial institution. If the financial institution enters into bankruptcy, the Funds' claims on the collateral may be subject to legal proceedings.

As of April 30, 2023, DWS Government & Agency Securities Portfolio held repurchase agreements with a gross value of \$1,317,860,000. The value of the related collateral exceeded the value of the repurchase agreements at period end. The detail of the related collateral is included in the footnotes following DWS Government & Agency Securities Portfolio's Investment Portfolio.

Federal Income Taxes. Each of the Funds' policies is to comply with the requirements of the Internal Revenue Code of 1986, as amended, which

are applicable to regulated investment companies, and to distribute all of its taxable and tax-exempt income to its shareholders.

At April 30, 2023, DWS Government & Agency Securities Portfolio had net tax basis capital loss carryforwards of approximately \$495,000 of short-term losses, which may be applied against realized net taxable capital gains indefinitely.

At April 30, 2023, DWS Tax-Exempt Portfolio had net tax basis capital loss carryforwards of approximately \$3,000 of short-term losses, which may be applied against realized net taxable capital gains indefinitely.

The Funds have reviewed the tax positions for the open tax years as of April 30, 2023 and have determined that no provision for income tax and/or uncertain tax positions is required in the Funds' financial statements. The Funds' federal tax returns for the prior three fiscal years remain open subject to examination by the Internal Revenue Service.

Distribution of Income. Net investment income of each Fund is declared as a daily dividend and is distributed to shareholders monthly. Each Fund may take into account capital gains and losses in its daily dividend declarations. Each Fund may also make additional distributions for tax purposes if necessary.

Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications to paid-in capital. Temporary book and tax basis differences will reverse in a subsequent period. There were no book-to-tax differences for the Funds.

At April 30, 2023, the Funds' components of distributable earnings (accumulated losses) on a net tax basis were as follows:

DWS Government & Agency Securities Portfolio:

Undistributed ordinary income*	\$ 4,084,645
Capital loss carryforwards	\$ (495,000)

DWS Tax-Exempt Portfolio:

Capital loss carryforwards	\$ (3,000)
----------------------------	------------

At April 30, 2023, DWS Government & Agency Securities Portfolio had an aggregate cost of investments for federal income tax purposes of \$1,762,683,618.

At April 30, 2023, DWS Tax-Exempt Portfolio had an aggregate cost of investments for federal income tax purposes of \$137,709,000.

In addition, the tax character of distributions paid to shareholders by each Fund is summarized as follows:

Portfolio	Years Ended April 30,	
	2023	2022
DWS Government & Agency Securities Portfolio:		
Distributions from ordinary income*	\$44,232,228	\$1,069,538
DWS Tax-Exempt Portfolio:		
Distributions from tax-exempt income	\$ 2,758,310	\$ 68,023

* For tax purposes, short-term capital gain distributions are considered ordinary income distributions.

Expenses. Expenses of the Trust arising in connection with a specific fund are allocated to that fund. Other Trust expenses which cannot be directly attributed to a fund are apportioned pro rata on the basis of relative net assets among the funds in the Trust.

Contingencies. In the normal course of business, the Funds may enter into contracts with service providers that contain general indemnification clauses. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet been made. However, based on experience, the Funds expect the risk of loss to be remote.

Other. Investment transactions are accounted for on trade date. Interest income is recorded on the accrual basis. Realized gains and losses from investment transactions are recorded on an identified cost basis. All premiums and discounts are amortized/accreted for both tax and financial reporting purposes.

B. Related Parties

Management Agreement. Under an Amended and Restated Investment Management Agreement with DWS Investment Management Americas, Inc. ("DIMA" or the "Advisor"), an indirect, wholly owned subsidiary of DWS Group GmbH & Co. KGaA ("DWS Group"), the Advisor directs the investments of DWS Government & Agency Securities Portfolio and DWS Tax-Exempt Portfolio in accordance with their respective investment objectives, policies and restrictions. The Advisor determines the securities, instruments and other contracts relating to investments to be purchased, sold or entered into by each Fund.

The monthly management fee for the Funds is computed based on the combined average daily net assets of the two funds of the Trust and allocated to DWS Government & Agency Securities Portfolio and DWS Tax-Exempt Portfolio, respectively, based on their relative net assets,

computed and accrued daily and payable monthly, at the following annual rates:

First \$500 million of the Funds' combined average daily net assets	.120%
Next \$500 million of such net assets	.100%
Next \$1 billion of such net assets	.075%
Next \$1 billion of such net assets	.060%
Over \$3 billion of such net assets	.050%

Accordingly, for the year ended April 30, 2023, the fee pursuant to the Investment Management Agreement on DWS Government & Agency Securities Portfolio was equivalent to an annual rate (exclusive of any applicable waivers/reimbursements) of 0.095% of the Fund's average daily net assets.

Accordingly, for the year ended April 30, 2023, the fee pursuant to the Investment Management Agreement on DWS Tax-Exempt Portfolio was equivalent to an annual rate (exclusive of any applicable waivers/reimbursements) of 0.095% of the Fund's average daily net assets.

The Advisor has agreed to contractually reduce its management fee for the DWS Government & Agency Securities Portfolio such that the annual effective rate is limited to 0.05% of the DWS Government & Agency Securities Portfolio's average daily net assets.

In addition, the Advisor agreed to voluntarily waive additional expenses. The voluntary waiver may be changed or terminated at any time without notice. Under these arrangements, the Advisor waived certain expenses on Service Shares of DWS Government & Agency Securities Portfolio and DWS Tax-Exempt Portfolio.

The Advisor also agreed to maintain expenses of certain other classes of the Trust. These rates are disclosed in the respective share classes' annual reports that are provided separately and are available upon request.

For the year ended April 30, 2023, fees waived and/or expenses reimbursed for each class are as follows:

DWS Government & Agency Securities Portfolio:

DWS Government & Agency Money Fund	\$ 306,620
DWS Government Cash Institutional Shares	1,740,813
Government Cash Managed Shares	47,298
Service Shares	16,953
	\$ 2,111,684

DWS Tax-Exempt Portfolio:

DWS Tax-Exempt Cash Premier Shares	\$ 18,261
DWS Tax-Exempt Money Fund	163,608
DWS Tax-Free Money Fund Class S	76,046
Service Shares	13,241
Tax-Exempt Cash Managed Shares	18,147
Tax-Free Investment Class	12,709
	\$ 302,012

Administration Fee. Pursuant to an Administrative Services Agreement, DIMA provides most administrative services to DWS Government & Agency Securities Portfolio and DWS Tax-Exempt Portfolio. For all services provided under the Administrative Services Agreement, each of these two Funds pays the Advisor an annual fee (“Administration Fee”) of 0.097% of each of these two Funds’ average daily net assets, computed and accrued daily and payable monthly. For the year ended April 30, 2023, the Administration Fee for each fund was as follows:

Fund	Administration Fee	Unpaid at April 30, 2023
DWS Government & Agency Securities Portfolio	\$1,552,668	\$145,221
DWS Tax-Exempt Portfolio	\$ 151,533	\$ 10,980

Service Provider Fees. DWS Service Company (“DSC”), an affiliate of the Advisor, is the transfer agent, dividend-paying agent and shareholder service agent for the Funds. Pursuant to a sub-transfer agency agreement between DSC and SS&C GIDS, Inc. (“SS&C”) (name changed from DST Systems, Inc. effective January 1, 2023), DSC has delegated certain transfer agent, dividend-paying agent and shareholder service agent functions to SS&C. DSC compensates SS&C out of the shareholder servicing fee it receives from the Funds. For the year ended April 30, 2023, the amounts charged to the Funds by DSC were as follows:

DWS Government & Agency Securities Portfolio:	Total Aggregated	Unpaid at April 30, 2023
DWS Government & Agency Money Fund	\$ 55,541	\$ 9,319
DWS Government Cash Institutional Shares	157,270	20,821
Government Cash Managed Shares	21,053	1,718
Service Shares	25,427	2,026
	\$ 259,291	\$ 33,884

DWS Tax-Exempt Portfolio:	Total Aggregated	Unpaid at April 30, 2023
DWS Tax-Exempt Cash Premier Shares	\$ 1,474	\$ 178
DWS Tax-Exempt Money Fund	32,059	5,291
DWS Tax-Free Money Fund Class S	29,017	4,861
Service Shares	13,745	426
Tax-Exempt Cash Managed Shares	1,797	379
Tax-Free Investment Class	5,728	779
	\$ 83,820	\$ 11,914

In addition, for the year ended April 30, 2023, the amounts charged to each Fund for recordkeeping and other administrative services provided by unaffiliated third parties, included in the Statement of Operations under "Services to shareholders," were as follows:

Sub-Recordkeeping

DWS Government & Agency Securities Portfolio:	Total Aggregated
DWS Government & Agency Money Fund	\$ 77,433

DWS Tax-Exempt Portfolio:	Total Aggregated
DWS Tax-Exempt Money Fund	\$ 1,403
DWS Tax-Free Money Fund Class S	1,819
	\$ 3,222

Distribution Service Agreement. Under the Distribution Service Agreement, in accordance with Rule 12b-1 under the 1940 Act, DWS Distributors, Inc. ("DDI"), an affiliate of the Advisor, receives a fee ("Distribution Fee"), calculated as a percentage of average daily net assets for the shares listed in the following table.

For the year ended April 30, 2023, the Distribution Fee was as follows:

DWS Government & Agency Securities Portfolio:	Distribution Fee	Unpaid at April 30, 2023	Annual Rate	Contractual Rate
Service Shares	\$ 55,711	\$ 3,106	.60%	.60%

DWS Tax-Exempt Portfolio:	Distribution Fee	Unpaid at April 30, 2023	Annual Rate	Contractual Rate
Service Shares	\$ 32,855	\$ 2,552	.60%	.60%
Tax-Free Investment Class	17,025	782	.25%	.25%
	\$ 49,880	\$ 3,334		

In addition, DDI provides information and administrative services for a fee (“Service Fee”) for the shares listed in the following table. A portion of these fees may be paid pursuant to a Rule 12b-1 plan.

For the year ended April 30, 2023, the Service Fee was as follows:

DWS Government & Agency Securities Portfolio:	Service Fee	Unpaid at April 30, 2023	Annual Rate	Contractual Rate
Government Cash Managed Shares	\$ 53,019	\$ 1,475	.15%	.15%
DWS Tax-Exempt Portfolio:	Service Fee	Unpaid at April 30, 2023	Annual Rate	Contractual Rate
Tax-Exempt Cash Managed Shares	\$ 16,248	\$ 1,028	.15%	.15%
Tax-Free Investment Class	4,767	219	.07%	.07%
	\$ 21,015	\$ 1,247		

Other Service Fees. Under an agreement with the Funds, DIMA is compensated for providing regulatory filing services to the Funds. For the year ended April 30, 2023, the amounts charged to the Funds by DIMA included in the Statement of Operations under “Reports to shareholders” were as follows:

Fund	Total Aggregated	Unpaid at April 30, 2023
DWS Government & Agency Securities Portfolio	\$1,455	\$525
DWS Tax-Exempt Portfolio	\$1,368	\$120

Trustees’ Fees and Expenses. The Funds paid retainer fees to each Trustee not affiliated with the Advisor, plus specified amounts to the Board Chairperson and to each committee Chairperson.

Transactions with Affiliates. The Funds may purchase securities from, or sell securities to, an affiliated fund provided the affiliation is solely due to having a common investment adviser, common officers, or common trustees. During the year ended April 30, 2023, the DWS Tax-Exempt Portfolio engaged in securities purchases of \$98,365,000 and securities sales of \$114,730,000 with a net gain (loss) on securities sales of \$0, with affiliated funds in compliance with Rule 17a-7 under the 1940 Act.

C. Line of Credit

The Funds and other affiliated funds (the “Participants”) share in a \$375 million revolving credit facility provided by a syndication of banks. Each Fund may borrow for temporary or emergency purposes, including the meeting of redemption requests that otherwise might require the untimely disposition of securities. The Participants are charged an annual commitment fee, which is allocated based on net assets, among each of

the Participants. Interest is calculated at a daily fluctuating rate per annum equal to the sum of 0.10% plus the higher of the Federal Funds Effective Rate and the Overnight Bank Funding Rate, plus 1.25%. Each Fund may borrow up to a maximum of 33 percent of its net assets under the agreement. The Funds had no outstanding loans at April 30, 2023.

D. Fund Share Transactions

The following tables summarize share and dollar activity in the Funds:

DWS Government & Agency Securities Portfolio

E. Ownership of the Fund

From time to time, a Fund may have a concentration of several shareholder accounts holding a significant percentage of shares outstanding. Investment activities of these shareholders could have a material impact on the Fund.

At April 30, 2023, 32% of the outstanding shares of DWS Government & Agency Securities Portfolio was held by other affiliated DWS funds shareholder accounts as a cash management vehicle for the cash collateral received in connection with the securities lending program of the DWS family of funds.

F. Money Market Fund Investments and Yield

Rising interest rates could cause the value of the Fund's investments — and therefore its share price as well — to decline. A rising interest rate environment may cause investors to move out of fixed-income securities and related markets on a large scale, which could adversely affect the price and liquidity of such securities and could also result in increased redemptions from the Fund. Increased redemptions from the Fund may force the Fund to sell investments at a time when it is not advantageous to do so, which could result in losses. Recently, there have been signs of inflationary price movements. As such, fixed-income and related markets may experience heightened levels of interest rate volatility and liquidity risk. A sharp rise in interest rates could cause the value of the Fund's investments to decline and impair the Fund's ability to maintain a stable \$1.00 share price. Conversely, any decline in interest rates is likely to cause the Fund's yield to decline, and during periods of unusually low or negative interest rates, the Fund's yield may approach or fall below zero. A low or negative interest rate environment may prevent the Fund from providing a positive yield or paying Fund expenses out of current income and, at times, could impair the Fund's ability to maintain a stable \$1.00 share price. Over time, the total return of a money market fund may not keep pace with inflation, which could result in a net loss of purchasing power for long-term investors. Interest rates can change in response to the supply and demand for credit, government and/or central bank monetary policy and action, inflation rates, and other factors. Recent and potential future changes in monetary policy made by central banks or governments are likely to affect the level of interest rates. Changing interest rates may have unpredictable effects on markets, may result in heightened market volatility and potential illiquidity and may detract from Fund performance to the extent the Fund is exposed to such interest rates and/or volatility. Money market funds try to minimize interest rate risk by purchasing short-term securities. If there is an insufficient supply of U.S. government securities to meet investor demand, it could result in lower yields on such securities and increase interest rate risk for the fund.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Trustees of Cash Account Trust:

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of Cash Account Trust (the “Trust”) (comprising DWS Government & Agency Securities Portfolio and DWS Tax-Exempt Portfolio (collectively referred to as the “Funds”)), including the investment portfolios, as of April 30, 2023, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds comprising Cash Account Trust at April 30, 2023, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended and their financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust’s management. Our responsibility is to express an opinion on each of the Funds’ financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust’s internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Trust’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2023, by correspondence with the custodian, brokers, and others; when replies were not received from brokers and others, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst + Young LLP

We have served as the auditor of one or more investment companies in the DWS family of funds since at least 1979, but we are unable to determine the specific year.

Boston, Massachusetts
June 22, 2023

Information About Each Fund's Expenses

As an investor of a Fund, you incur two types of costs: ongoing expenses and transaction costs. Ongoing expenses include management fees, distribution and service (12b-1) fees and other Fund expenses. Examples of transaction costs include account maintenance fees, which are not shown in this section. The following tables are intended to help you understand your ongoing expenses (in dollars) of investing in each Fund and to help you compare these expenses with the ongoing expenses of investing in other mutual funds. In the most recent six-month period, each Fund limited these expenses for Service Shares; had they not done so, expenses would have been higher. The example in the table is based on an investment of \$1,000 invested at the beginning of the six-month period and held for the entire period (November 1, 2022 to April 30, 2023).

The tables illustrate your Fund's expenses in two ways:

- **Actual Fund Return.** This helps you estimate the actual dollar amount of ongoing expenses (but not transaction costs) paid on a \$1,000 investment in the Fund using the Fund's actual return during the period. To estimate the expenses you paid over the period, simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the "Expenses Paid per \$1,000" line under the share class you hold.
- **Hypothetical 5% Fund Return.** This helps you to compare your Fund's ongoing expenses (but not transaction costs) with those of other mutual funds using the Fund's actual expense ratio and a hypothetical rate of return of 5% per year before expenses. Examples using a 5% hypothetical fund return may be found in the shareholder reports of other mutual funds. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period.

Please note that the expenses shown in these tables are meant to highlight your ongoing expenses only and do not reflect any transaction costs. The "Expenses Paid per \$1,000" line of the tables is useful in comparing ongoing expenses only and will not help you determine the relative total expense of owning different funds. If these transaction costs had been included, your costs would have been higher.

Service Shares

Expenses and Value of a \$1,000 Investment

for the six months ended April 30, 2023 (Unaudited)

Actual Fund Return	DWS Government & Agency Securities Portfolio	DWS Tax-Exempt Portfolio
Beginning Account Value 11/1/22	\$1,000.00	\$1,000.00
Ending Account Value 4/30/23	\$1,016.66	\$1,009.16
Expenses Paid per \$1,000*	\$ 4.75	\$ 5.18

Hypothetical 5% Fund Return

Beginning Account Value 11/1/22	\$1,000.00	\$1,000.00
Ending Account Value 4/30/23	\$1,020.08	\$1,019.64
Expenses Paid per \$1,000*	\$ 4.76	\$ 5.21

* Expenses are equal to the Fund's annualized expense ratio for each share class, multiplied by the average account value over the period, multiplied by 181 (the number of days in the most recent six-month period), then divided by 365.

Annualized Expense Ratios	DWS Government & Agency Securities Portfolio	DWS Tax-Exempt Portfolio
Service Shares	.95%	1.04%

Tax Information

(Unaudited)

For the DWS Government & Agency Securities Portfolio, a total of 76% of the dividends distributed during the fiscal year was derived from interest on U.S. government securities, which is generally exempt from state income tax.

For the DWS Tax-Exempt Portfolio, of the dividends paid from net investment income for the taxable year ended April 30, 2023, 100% are designated as exempt interest dividends for federal income tax purposes. Please consult a tax advisor if you have questions about federal or state income tax laws, or on how to prepare your tax returns. If you have specific questions about your account, please call (800) 728-3337.

Other Information

Proxy Voting

The Fund's policies and procedures for voting proxies for portfolio securities and information about how the Fund voted proxies related to its portfolio securities during the most recent 12-month period ended June 30 are available on our Web site — dws.com/en-us/resources/proxy-voting — or on the SEC's Web site — sec.gov. To obtain a written copy of the Fund's policies and procedures without charge, upon request, call us toll free at (800) 728-3337.

Portfolio Holdings

Each month, information about the Fund and its portfolio holdings is filed with the SEC on Form N-MFP. The SEC delays the public availability of the information filed on Form N-MFP for 60 days after the end of the reporting period included in the filing. These forms will be available on the SEC's Web site at sec.gov. The Fund's portfolio holdings are also posted on dws.com as of each month-end. Please see the Fund's current prospectus for more information.

Advisory Agreement Board Considerations and Fee Evaluation

DWS Government & Agency Securities Portfolio

The Board of Trustees (hereinafter referred to as the “Board” or “Trustees”) approved the renewal of DWS Government & Agency Securities Portfolio’s (the “Fund”) investment management agreement (the “Agreement”) with DWS Investment Management Americas, Inc. (“DIMA”) in September 2022.

In terms of the process that the Board followed prior to approving the Agreement, shareholders should know that:

- During the entire process, all of the Fund’s Trustees were independent of DIMA and its affiliates (the “Independent Trustees”).
- The Board met frequently during the past year to discuss fund matters and dedicated a substantial amount of time to contract review matters. Over the course of several months, the Board reviewed extensive materials received from DIMA, independent third parties and independent counsel. These materials included an analysis of the Fund’s performance, fees and expenses, and profitability from a fee consultant retained by the Fund’s Independent Trustees (the “Fee Consultant”).
- The Board also received extensive information throughout the year regarding performance of the Fund.
- The Independent Trustees regularly met privately with counsel to discuss contract review and other matters. In addition, the Independent Trustees were advised by the Fee Consultant in the course of their review of the Fund’s contractual arrangements and considered a comprehensive report prepared by the Fee Consultant in connection with their deliberations.
- In connection with reviewing the Agreement, the Board also reviewed the terms of the Fund’s Rule 12b-1 plan, distribution agreement, administrative services agreement, transfer agency agreement and other material service agreements.

In connection with the contract review process, the Board considered the factors discussed below, among others. The Board also considered that DIMA and its predecessors have managed the Fund since its inception, and the Board believes that a long-term relationship with a capable, conscientious advisor is in the best interests of the Fund. The Board considered, generally, that shareholders chose to invest or remain invested in the Fund knowing that DIMA managed the Fund. DIMA is part of DWS Group GmbH & Co. KGaA (“DWS Group”). DWS Group is a global asset management business that offers a wide range of investing expertise and resources, including research capabilities in many countries

throughout the world. In 2018, approximately 20% of DWS Group's shares were sold in an initial public offering, with Deutsche Bank AG owning the remaining shares.

As part of the contract review process, the Board carefully considered the fees and expenses of each DWS fund overseen by the Board in light of the fund's performance. In many cases, this led to the negotiation and implementation of expense caps.

While shareholders may focus primarily on fund performance and fees, the Fund's Board considers these and many other factors, including the quality and integrity of DIMA's personnel and administrative support services provided by DIMA, such as back-office operations, fund valuations, and compliance policies and procedures.

Nature, Quality and Extent of Services. The Board considered the terms of the Agreement, including the scope of advisory services provided under the Agreement. The Board noted that, under the Agreement, DIMA provides portfolio management services to the Fund and that, pursuant to a separate administrative services agreement, DIMA provides administrative services to the Fund. The Board considered the experience and skills of senior management and investment personnel and the resources made available to such personnel. The Board also considered the risks to DIMA in sponsoring or managing the Fund, including financial, operational and reputational risks, the potential economic impact to DIMA from such risks and DIMA's approach to addressing such risks. The Board reviewed the Fund's performance over short-term and long-term periods and compared those returns to various agreed-upon performance measures, including a peer universe compiled using information supplied by iMoneyNet, an independent fund data service. The Board also noted that it has put into place a process of identifying "Funds in Review" (e.g., funds performing poorly relative to a peer universe), and receives additional reporting from DIMA regarding such funds and, where appropriate, DIMA's plans to address underperformance. The Board believes this process is an effective manner of identifying and addressing underperforming funds. Based on the information provided, the Board noted that, for the one- and three-year periods ended December 31, 2021, the Fund's gross performance (Service Shares) was in the 3rd quartile of the applicable iMoneyNet universe (the 1st quartile being the best performers and the 4th quartile being the worst performers).

Fees and Expenses. The Board considered the Fund's investment management fee schedule, operating expenses and total expense ratios, and comparative information provided by Broadridge Financial Solutions, Inc. ("Broadridge") and the Fee Consultant regarding investment management fee rates paid to other investment advisors by similar funds (1st quartile being the most favorable and 4th quartile being the least favorable). With respect to management fees paid to other investment

advisors by similar funds, the Board noted that the contractual fee rates paid by the Fund, which include a 0.097% fee paid to DIMA under the Fund's administrative services agreement, were lower than the median of the applicable Broadridge peer group (based on Broadridge data provided as of December 31, 2021). Based on Broadridge data provided as of December 31, 2021, the Board noted that the Fund's total (net) operating expenses (excluding 12b-1 fees and/or shareholder administration fees, if applicable) were lower than the median of the applicable Broadridge expense universe (less any applicable 12b-1 fees) for the following share classes: DWS Government Cash Institutional Shares (2nd quartile), Government Cash Managed Shares (2nd quartile), DWS Government & Agency Money Fund shares (2nd quartile) and Service Shares (2nd quartile). The Board noted the expense limitations agreed to by DIMA. The Board also noted the voluntary fee waivers implemented by DIMA from time to time in recent years to ensure the Fund maintained a positive yield. The Board considered the Fund's management fee rate as compared to fees charged by DIMA to comparable DWS U.S. registered funds ("DWS Funds") and considered differences between the Fund and the comparable DWS Funds. The information requested by the Board as part of its review of fees and expenses also included information about institutional accounts (including any sub-advised funds and accounts) and funds offered primarily to European investors ("DWS Europe Funds") managed by DWS Group. The Board noted that DIMA indicated that DWS Group does not manage any institutional accounts or DWS Europe Funds comparable to the Fund.

On the basis of the information provided, the Board concluded that management fees were reasonable and appropriate in light of the nature, quality and extent of services provided by DIMA.

Profitability. The Board reviewed detailed information regarding revenues received by DIMA under the Agreement. The Board considered the estimated costs to DIMA, and pre-tax profits realized by DIMA, from advising the DWS Funds, as well as estimates of the pre-tax profits attributable to managing the Fund in particular. The Board also received information regarding the estimated enterprise-wide profitability of DIMA and its affiliates with respect to all fund services in totality and by fund. The Board and the Fee Consultant reviewed DIMA's methodology in allocating its costs to the management of the Fund. Based on the information provided, the Board concluded that the pre-tax profits realized by DIMA in connection with the management of the Fund were not unreasonable. The Board also reviewed certain publicly available information regarding the profitability of certain similar investment management firms. The Board noted that, while information regarding the profitability of such firms is limited (and in some cases is not necessarily prepared on a comparable basis), DIMA and its affiliates' overall profitability with respect to the DWS Funds (after taking into account

distribution and other services provided to the funds by DIMA and its affiliates) was lower than the overall profitability levels of most comparable firms for which such data was available.

Economies of Scale. The Board considered whether there are economies of scale with respect to the management of the Fund and whether the Fund benefits from any economies of scale. The Board noted that the Fund's investment management fee schedule includes fee breakpoints. The Board concluded that the Fund's fee schedule represents an appropriate sharing between the Fund and DIMA of such economies of scale as may exist in the management of the Fund at current asset levels.

Other Benefits to DIMA and Its Affiliates. The Board also considered the character and amount of other incidental or "fall-out" benefits received by DIMA and its affiliates, including any fees received by DIMA for administrative services provided to the Fund, any fees received by an affiliate of DIMA for transfer agency services provided to the Fund and any fees received by an affiliate of DIMA for distribution services. The Board also considered benefits to DIMA related to brokerage and soft-dollar allocations, including allocating brokerage to pay for research generated by parties other than the executing broker dealers, which pertain primarily to funds investing in equity securities. In addition, the Board considered the incidental public relations benefits to DIMA related to DWS Funds advertising and cross-selling opportunities among DIMA products and services. The Board considered these benefits in reaching its conclusion that the Fund's management fees were reasonable.

Compliance. The Board considered the significant attention and resources dedicated by DIMA to its compliance processes in recent years. The Board noted in particular (i) the experience, seniority and time commitment of the individuals serving as DIMA's and the Fund's chief compliance officers and (ii) the substantial commitment of resources by DIMA and its affiliates to compliance matters, including the retention of compliance personnel.

Based on all of the information considered and the conclusions reached, the Board determined that the continuation of the Agreement is in the best interests of the Fund. In making this determination, the Board did not give particular weight to any single factor identified above. The Board considered these factors over the course of numerous meetings, certain of which were in executive session with only the Independent Trustees and counsel present. It is possible that individual Independent Trustees may have weighed these factors differently in reaching their individual decisions to approve the continuation of the Agreement.

DWS Tax-Exempt Portfolio

The Board of Trustees (hereinafter referred to as the “Board” or “Trustees”) approved the renewal of DWS Tax-Exempt Portfolio’s (the “Fund”) investment management agreement (the “Agreement”) with DWS Investment Management Americas, Inc. (“DIMA”) in September 2022.

In terms of the process that the Board followed prior to approving the Agreement, shareholders should know that:

- During the entire process, all of the Fund’s Trustees were independent of DIMA and its affiliates (the “Independent Trustees”).
- The Board met frequently during the past year to discuss fund matters and dedicated a substantial amount of time to contract review matters. Over the course of several months, the Board reviewed extensive materials received from DIMA, independent third parties and independent counsel. These materials included an analysis of the Fund’s performance, fees and expenses, and profitability from a fee consultant retained by the Fund’s Independent Trustees (the “Fee Consultant”).
- The Board also received extensive information throughout the year regarding performance of the Fund.
- The Independent Trustees regularly met privately with counsel to discuss contract review and other matters. In addition, the Independent Trustees were advised by the Fee Consultant in the course of their review of the Fund’s contractual arrangements and considered a comprehensive report prepared by the Fee Consultant in connection with their deliberations.
- In connection with reviewing the Agreement, the Board also reviewed the terms of the Fund’s Rule 12b-1 plan, distribution agreement, administrative services agreement, transfer agency agreement and other material service agreements.

In connection with the contract review process, the Board considered the factors discussed below, among others. The Board also considered that DIMA and its predecessors have managed the Fund since its inception, and the Board believes that a long-term relationship with a capable, conscientious advisor is in the best interests of the Fund. The Board considered, generally, that shareholders chose to invest or remain invested in the Fund knowing that DIMA managed the Fund. DIMA is part of DWS Group GmbH & Co. KGaA (“DWS Group”). DWS Group is a global asset management business that offers a wide range of investing expertise and resources, including research capabilities in many countries throughout the world. In 2018, approximately 20% of DWS Group’s shares were sold in an initial public offering, with Deutsche Bank AG owning the remaining shares.

As part of the contract review process, the Board carefully considered the fees and expenses of each DWS fund overseen by the Board in light of the fund's performance. In many cases, this led to the negotiation and implementation of expense caps.

While shareholders may focus primarily on fund performance and fees, the Fund's Board considers these and many other factors, including the quality and integrity of DIMA's personnel and administrative support services provided by DIMA, such as back-office operations, fund valuations, and compliance policies and procedures.

Nature, Quality and Extent of Services. The Board considered the terms of the Agreement, including the scope of advisory services provided under the Agreement. The Board noted that, under the Agreement, DIMA provides portfolio management services to the Fund and that, pursuant to a separate administrative services agreement, DIMA provides administrative services to the Fund. The Board considered the experience and skills of senior management and investment personnel and the resources made available to such personnel. The Board also considered the risks to DIMA in sponsoring or managing the Fund, including financial, operational and reputational risks, the potential economic impact to DIMA from such risks and DIMA's approach to addressing such risks. The Board reviewed the Fund's performance over short-term and long-term periods and compared those returns to various agreed-upon performance measures, including a peer universe compiled using information supplied by iMoneyNet, an independent fund data service. The Board also noted that it has put into place a process of identifying "Funds in Review" (e.g., funds performing poorly relative to a peer universe), and receives additional reporting from DIMA regarding such funds and, where appropriate, DIMA's plans to address underperformance. The Board believes this process is an effective manner of identifying and addressing underperforming funds. Based on the information provided, the Board noted that, for the one- and three-year periods ended December 31, 2021, the Fund's gross performance (DWS Tax-Exempt Cash Premier Shares) was in the 3rd quartile and 2nd quartile, respectively, of the applicable iMoneyNet universe (the 1st quartile being the best performers and the 4th quartile being the worst performers).

Fees and Expenses. The Board considered the Fund's investment management fee schedule, operating expenses and total expense ratios, and comparative information provided by Broadridge Financial Solutions, Inc. ("Broadridge") and the Fee Consultant regarding investment management fee rates paid to other investment advisors by similar funds (1st quartile being the most favorable and 4th quartile being the least favorable). With respect to management fees paid to other investment advisors by similar funds, the Board noted that the contractual fee rates paid by the Fund, which include a 0.097% fee paid to DIMA under the Fund's administrative services agreement, were lower than the median

(1st quartile) of the applicable Broadridge peer group (based on Broadridge data provided as of December 31, 2021). Based on Broadridge data provided as of December 31, 2021, the Board noted that the Fund's total (net) operating expenses (excluding 12b-1 fees and/or shareholder administration fees, if applicable) were lower than the median of the applicable Broadridge expense universe (less any applicable 12b-1 fees) for the following share classes: Service Shares (2nd quartile), DWS Tax-Exempt Cash Premier Shares (2nd quartile), Tax-Free Investment Class shares (2nd quartile), Tax-Exempt Cash Managed Shares (2nd quartile), DWS Tax-Exempt Money Fund shares (2nd quartile) and DWS Tax-Free Money Fund Class S shares (2nd quartile). The Board noted the expense limitations agreed to by DIMA. The Board also noted the voluntary fee waivers implemented by DIMA from time to time in recent years to ensure the Fund maintained a positive yield. The Board considered the Fund's management fee rate as compared to fees charged by DIMA to comparable DWS U.S. registered funds ("DWS Funds"), noting that DIMA indicated that it does not provide services to any other comparable DWS Funds. The information requested by the Board as part of its review of fees and expenses also included information about institutional accounts (including any sub-advised funds and accounts) and funds offered primarily to European investors ("DWS Europe Funds") managed by DWS Group. The Board noted that DIMA indicated that DWS Group does not manage any institutional accounts or DWS Europe Funds comparable to the Fund. On the basis of the information provided, the Board concluded that management fees were reasonable and appropriate in light of the nature, quality and extent of services provided by DIMA.

Profitability. The Board reviewed detailed information regarding revenues received by DIMA under the Agreement. The Board considered the estimated costs to DIMA, and pre-tax profits realized by DIMA, from advising the DWS Funds, as well as estimates of the pre-tax profits attributable to managing the Fund in particular. The Board also received information regarding the estimated enterprise-wide profitability of DIMA and its affiliates with respect to all fund services in totality and by fund. The Board and the Fee Consultant reviewed DIMA's methodology in allocating its costs to the management of the Fund. Based on the information provided, the Board concluded that the pre-tax profits realized by DIMA in connection with the management of the Fund were not unreasonable. The Board also reviewed certain publicly available information regarding the profitability of certain similar investment management firms. The Board noted that, while information regarding the profitability of such firms is limited (and in some cases is not necessarily prepared on a comparable basis), DIMA and its affiliates' overall profitability with respect to the DWS Funds (after taking into account distribution and other services provided to the funds by DIMA and

its affiliates) was lower than the overall profitability levels of most comparable firms for which such data was available.

Economies of Scale. The Board considered whether there are economies of scale with respect to the management of the Fund and whether the Fund benefits from any economies of scale. The Board noted that the Fund's investment management fee schedule includes fee breakpoints. The Board concluded that the Fund's fee schedule represents an appropriate sharing between the Fund and DIMA of such economies of scale as may exist in the management of the Fund at current asset levels.

Other Benefits to DIMA and Its Affiliates. The Board also considered the character and amount of other incidental or "fall-out" benefits received by DIMA and its affiliates, including any fees received by DIMA for administrative services provided to the Fund, any fees received by an affiliate of DIMA for transfer agency services provided to the Fund and any fees received by an affiliate of DIMA for distribution services. The Board also considered benefits to DIMA related to brokerage and soft-dollar allocations, including allocating brokerage to pay for research generated by parties other than the executing broker dealers, which pertain primarily to funds investing in equity securities. In addition, the Board considered the incidental public relations benefits to DIMA related to DWS Funds advertising and cross-selling opportunities among DIMA products and services. The Board considered these benefits in reaching its conclusion that the Fund's management fees were reasonable.

Compliance. The Board considered the significant attention and resources dedicated by DIMA to its compliance processes in recent years. The Board noted in particular (i) the experience, seniority and time commitment of the individuals serving as DIMA's and the Fund's chief compliance officers and (ii) the substantial commitment of resources by DIMA and its affiliates to compliance matters, including the retention of compliance personnel.

Based on all of the information considered and the conclusions reached, the Board determined that the continuation of the Agreement is in the best interests of the Fund. In making this determination, the Board did not give particular weight to any single factor identified above. The Board considered these factors over the course of numerous meetings, certain of which were in executive session with only the Independent Trustees and counsel present. It is possible that individual Independent Trustees may have weighed these factors differently in reaching their individual decisions to approve the continuation of the Agreement.

Board Members and Officers

The following table presents certain information regarding the Board Members and Officers of the Trust/Corporation. Each Board Member's year of birth is set forth in parentheses after his or her name. Unless otherwise noted, (i) each Board Member has engaged in the principal occupation(s) noted in the table for at least the most recent five years, although not necessarily in the same capacity; and (ii) the address of each Independent Board Member is c/o Keith R. Fox, DWS Funds Board Chair, c/o Thomas R. Hiller, Ropes & Gray LLP, Prudential Tower, 800 Boylston Street, Boston, MA 02199-3600. Except as otherwise noted below, the term of office for each Board Member is until the election and qualification of a successor, or until such Board Member sooner dies, resigns, is removed or as otherwise provided in the governing documents of the Trust/Corporation. Because the Fund does not hold an annual meeting of shareholders, each Board Member will hold office for an indeterminate period.

The Board Members may also serve in similar capacities with other funds in the fund complex. The number of funds in the DWS fund complex shown in the table below includes all registered open- and closed-end funds (including all of their portfolios) advised by the Advisor and any registered funds that have an investment advisor that is an affiliated person of the Advisor.

Independent Board Members/Independent Advisory Board Members

Name, Year of Birth, Position with the Trust/Corporation and Length of Time Served ¹	Business Experience and Directorships During the Past Five Years	Number of Funds in DWS Fund Complex Overseen	Other Directorships Held by Board Member
