**Net Assets** 

- (a) All or a portion of these securities were on loan. In addition, "Other Assets and Liabilities, Net" may include pending sales that are also on loan. The value of securities loaned at March 31, 2023 amounted to \$651,927, which is 0.0% of net assets.
- (b) Variable or floating rate security. These securities are shown at their current rate as of March 31, 2023. For securities based on a published reference rate and spread, the reference rate and spread are indicated within the description above. Certain variable rate securities are not based on a published reference rate and spread but adjust periodically based on current market conditions, prepayment of underlying positions and/or other variables. Securities with a floor or ceiling feature are disclosed at the inherent rate, where applicable.
- (c) Government-backed debt issued by financial companies or government sponsored enterprises.
- (d) At March 31, 2023, this security has been pledged, in whole or in part, as collateral for open commodity-linked rate swap contracts.
- (e) Annualized yield at time of purchase; not a coupon rate.
- (f) At March 31, 2023, this security has been pledged, in whole or in part, to cover initial margin requirements for open futures contracts.
- (g) Affiliated fund managed by DWS Investment Management Americas, Inc. The rate shown is the annualized seven-day yield at period end.

- (h) Represents cash collateral held in connection with securities lending. Income earned by the Fund is net of borrower rebates.
- (i) Represents the net increase (purchase cost) or decrease (sales proceeds) in the amount invested in cash collateral for the period ended March 31, 2023.

144A: Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.

CLO: Collateralized Loan Obligation

COT: Commitment of Traders

Interest Only: Interest Only (IO) bonds represent the "interest only" portion of payments on a pool of underlying mortgages or mortgage-backed securities. IO securities are subject to prepayment risk of the pool of underlying mortgages.

LME: London Metal Exchange

REG S: Securities sold under Regulation S may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act of 1933.

REIT: Real Estate Investment Trust

SOFR: Secured Overnight Financing Rate

UFJ: United Financial of Japan

ULS: Ultra-Low Sulfur

WTI: West Texas Intermediate

LIBOR: London Interbank Offered Rate, the benchmark rate for certain floating rate securities, has been phased out as of the end of 2021 for most maturities and currencies, although certain widely used US Dollar LIBOR rates are expected to continue to be published through June 2023 to assist with the transition. The transition process from LIBOR towards its expected replacement reference rate with the Secured Overnight Financing Rate (SOFR) for US Dollar LIBOR rates has become increasingly well defined, especially following the signing of the federal Adjustable Interest Rate (LIBOR) Act in March 2022, and the adoption of implementing regulations in December 2022, which will replace LIBOR-based benchmark rates in instruments with no, or insufficient, alternative rate-setting provisions with a SOFR-based rate following the cessation of LIBOR. However, the Fund or the instruments in which the Fund invests may be adversely affected by the phase out by, among other things, increased volatility or illiquidity.

Included in the portfolio are investments in mortgage or asset-backed securities which are interests in separate pools of mortgages or assets. Effective maturities of these investments may be shorter than stated maturities due to prepayments.

## Investment in Subsidiary

The Fund may seek exposure to the commodities markets by investing a portion of its assets in a wholly owned subsidiary organized under the laws of the Cayman Islands (the "Subsidiary"). Among other investments, the Subsidiary may invest in commodity-linked derivative instruments such as swaps and futures contracts. The Subsidiary may also invest in debt securities, some of which are intended to serve as margin or collateral for the Subsidiary's derivative positions. As of March 31, 2023, the Fund held \$356,582,159 in the Subsidiary, representing 22.0% of the Fund's total assets. The Fund's Investment Portfolio has been consolidated and includes the accounts of the Fund and the Subsidiary

#### Fair Value Measurements

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in three broad levels. Level 1 includes quoted prices in active markets for identical securities. Level 2 includes other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds and credit risk). Level 3 includes significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments). The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities.

The following is a summary of the inputs used as of March 31, 2023 in valuing the Fund's investments.

## OBTAIN AN OPEN-END FUND PROSPECTUS

To obtain a summary prospectus, if available, or prospectus, download one from fundsus.dws.com, talk to your financial representative or call (800) 728-3337. We advise you to carefully consider the product's objectives, risks, charges and expenses before investing. The summary prospectus and prospectus contain this and other important information about the investment product. Please read the prospectus carefully before you invest.

## CLOSED-END FUNDS

Closed-end funds, unlike open-end funds, are not continuously offered. There is a one time public offering and once issued, shares of closed-end funds are sold in the open market through a stock exchange. Shares of closed-end funds frequently trade at a discount to net asset value. The price of the fund's shares is determined by a number of factors, several of which are beyond the control of the fund. Therefore, the fund cannot predict whether its shares will trade at, below or above net asset value.
