This report must be preceded or accompanied by a prospectus. To obtain a summary prospectus, if available, or prospectus for any of our funds, visit [dws.com](https://www.dws.com). We advise you to consider the Fund's objectives, risks, charges and expenses carefully before investing. The summary prospectus and prospectus contain this and other important information about the Fund. Please read the prospectus carefully before you invest.

The brand DWS represents DWS Group GmbH & Co. KGaA and any of its subsidiaries such as DWS Distributors, Inc. which offers investment products or DWS Investment Management Americas, Inc. and RREEF America L.L.C. which offer advisory services.

NOT FDIC/NCUA INSURED NO BANK GUARANTEE MAY LOSE VALUE
NOT A DEPOSIT NOT INSURED BY ANY FEDERAL GOVERNMENT AGENCY

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The share price of money market funds can fall below the \$1.00 share price. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time. You should not rely on or expect the Advisor to enter into support agreements or take other actions to maintain the Fund's \$1.00 share price. The credit quality of the Fund's holdings can change rapidly in certain markets, and the default of a single holding could have an adverse impact on the Fund's share price. The Fund's share price can also be negatively affected during periods of high redemption pressures and/or illiquid markets. The actions of a few large investors in one class of shares of the Fund may have a significant adverse effect on the share prices of all classes of shares of the Fund. Please read the prospectus for specific details regarding the Fund's risk profile.

War, terrorism, sanctions, economic uncertainty, trade disputes, public health crises, natural disasters, climate change and related geopolitical events have led, and, in the future, may lead to significant disruptions in U.S. and world economies and markets, which may lead to increased market volatility and may have significant adverse effects on the Fund and its investments.

Market Overview and Fund Performance

All performance information below is historical and does not guarantee future results. Investment return and principal fluctuate, so your shares may be worth more or less when redeemed. Current performance may differ from performance data shown. Please visit [dws.com](https://www.dws.com) for the Fund's most recent month-end performance. The 7-day current yield refers to the income paid by the Fund over a 7-day period expressed as an annual percentage rate of the Fund's shares outstanding. Yields fluctuate and are not guaranteed.

Investment Objective

The Fund seeks to provide maximum current income consistent with stability of capital.

During the 12-month period that ended on March 31, 2023, yields across the money market yield curve moved higher as the U.S. Federal Reserve (Fed) raised its benchmark overnight lending rate dramatically as it sought to rein in persistently high inflation.

Entering the period, the Fed had already begun to raise short term rates, while signaling it would soon begin reducing its holdings of Treasury securities and agency mortgage-backed securities (MBS) by reinvesting only part of the proceeds from maturing securities. April saw U.S. consumer price inflation for March of 2022 come in at above 8%, and inflation would peak at 9.1% in June before receding slightly over the remainder of the year. The Fed implemented a series of sharp rate hikes of between 50 and 75 basis points between May and December, bringing the fed funds target to a range of 4.25% to 4.50%, its highest level since the fall of 2007.

As inflation showed signs of moderating entering 2023, markets became increasingly optimistic that the Fed and other leading central banks were poised to stop raising interest rates. January saw Treasury yields ease off their recent highs on the outlook for easier monetary policy. On February 1, the Fed raised its benchmark overnight lending rate by a comparatively moderate 25 basis points, to a target range of 4.50% to 4.75%.

March of 2023 saw the failure of two U.S. banks and the collapse of European giant Credit Suisse raise the prospect of a financial crisis. The

Fed responded by initiating a new lending facility to support bank liquidity while the market began to price in multiple cuts in fed funds before year end. The outlook for easier monetary policy and the flight to safety brought about by the specter of a banking crisis led longer-term money market rates to drift lower. At its March 23 meeting the Fed raised the target for its benchmark overnight lending rate by a quarter-point to a range of 4.75%–5.0%. The rate hike was well-received by financial markets as a signal that the Fed believed the financial system remained on generally sound footing.

As of March 31, 2023, yields for one-month, six-month and one-year Treasury bills were 4.74%, 4.94% and 4.64%, respectively, versus 0.17%, 1.06% and 1.63%, respectively, as of March 31, 2022 (source: U.S. Department of the Treasury).

“During the 12-month period that ended on March 31, 2023, yields across the money market yield curve moved higher as the Fed raised its benchmark overnight lending rate dramatically as it sought to rein in persistently high inflation.”

Positive Contributors to Fund Performance

We were able to maintain what we believe to be a competitive yield for the Fund during the annual period ended March 31, 2023. During the period, the Fund held a large percentage of portfolio assets in Treasury floating-rate securities to take advantage of increases in interest rates. At the same time, the Fund invested in overnight agency repurchase agreements for liquidity and looked for yield opportunities from three- to six-month agency and Treasury securities.

Negative Contributors to Fund Performance

To meet liquidity purposes throughout the day, we execute our final trades at the market close when repo collateral can be scarce. As a result, some of these end-of-day trades can pay a lower yield and detract from overall performance.

Outlook and Positioning

The Fed appears to be approaching the end of its current rate hiking cycle, and the market has begun to price in rate cuts over the second half of

2023. While the course of Fed policy is uncertain and subject to changes in conditions, we have been evaluating opportunities to extend portfolio duration in order to lock in higher yields.

We have continued to emphasize what we believe to be the highest credit quality within the Fund, while seeking to maintain conservative investment strategies and standards under the current market conditions. More broadly speaking, we have continued to apply a careful approach while seeking a competitive yield for shareholders.

Portfolio Performance (as of March 31, 2023)

Performance is historical and does not guarantee future results. Current performance may be lower or higher than the performance data quoted.

You could lose money by investing in the Fund. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

	7-Day Current Yield
DWS Treasury Portfolio — DWS U.S. Treasury Money Fund Class S	4.55%*

Yields are historical, will fluctuate, and do not guarantee future performance. The 7-day current yield refers to the income paid by the Fund over a 7-day period expressed as an annual percentage rate of the Fund's shares outstanding.

* The 7-Day Current Yield would have been 4.48% had certain expenses not been reduced.

Please call your financial advisor for the most current yield information.

Portfolio Management Team

A group of investment professionals is responsible for the day-to-day management of the Fund. These investment professionals have a broad range of experience managing money market funds.

The views expressed reflect those of the portfolio management team only through the end of the period of the report as stated on the cover. The management team's views are subject to change at any time based on market and other conditions and should not be construed as a recommendation. Past performance is no guarantee of future results. Current and future portfolio holdings are subject to risk.

Terms to Know

The **yield curve** is a graphic representation of how yields on bonds of different maturities compare. Normally, yield curves slant upward, as bonds with longer maturities typically offer higher yields than short-term bonds.

Floating-rate securities are investments with interest payments that adjust periodically based upon a predetermined benchmark interest rate.

Repurchase Agreements (Repos) are agreements between a seller and a buyer, usually of government securities, where the seller agrees to repurchase the securities at a given price and usually at a stated time. Repos are widely used money market instruments.

Portfolio Summary

(Unaudited)

Asset Allocation (As a % of Investment Portfolio)	3/31/23	3/31/22
Repurchase Agreements	61%	54%
Government & Agency Obligations	39%	46%
	100%	100%

Weighted Average Maturity	3/31/23	3/31/22
Investors Cash Trust — DWS Treasury Portfolio	20 days	23 days
iMoneyNet Money Fund Average™ — Treasury & Repo Retail*	5 days	27 days

* The Fund is compared to its respective iMoneyNet Money Fund Average category: Treasury & Repo Retail — Category includes retail funds that may invest in U.S. Treasury securities and repurchase agreements backed by the U.S. Treasury.

Weighted average maturity, also known as effective maturity, is the weighted average of the maturity date of bonds held by the Fund taking into consideration any available maturity shortening features.

Portfolio holdings and characteristics are subject to change.

For more complete details about the Fund's investment portfolio, see page 9. A quarterly Fact Sheet is available on dws.com or upon request.

Fair Value Measurements

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in three broad levels. Level 1 includes quoted prices in active markets for identical securities. Level 2 includes other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds and credit risk). Level 3 includes significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments). The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities. Securities held by the Fund are reflected as Level 2 because the securities are valued at amortized cost (which approximates fair value) and, accordingly, the inputs used to determine value are not quoted prices in an active market.

The following is a summary of the inputs used as of March 31, 2023 in valuing the Fund's investments. For information on the Fund's policy regarding the valuation of investments, please refer to the Security Valuation section of Note A in the accompanying Notes to Financial Statements.

Assets	Level 1	Level 2	Level 3	Total
Investments in Securities (a)	\$—	\$218,788,246	\$—	\$218,788,246
Repurchase Agreements	—	339,500,000	—	339,500,000
Total	\$—	\$558,288,246	\$—	\$558,288,246

(a) See Investment Portfolio for additional detailed categorizations.

Notes to Financial Statements

A. Organization and Significant Accounting Policies

Investors Cash Trust (the “Trust”) is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open end management investment company organized as a Massachusetts business trust.

DWS Treasury Portfolio (the “Fund”) is a diversified series of the Trust that offers multiple classes of shares that include Capital Shares, Institutional Shares, Investment Class Shares and DWS U.S. Treasury Money Fund Class S. Certain detailed financial information for Capital Shares, Institutional Shares and Investment Class Shares is provided separately and is available upon request.

Investment income, realized gains and losses, and certain fund-level expenses and expense reductions, if any, are borne pro rata on the basis of relative net assets by the holders of all classes of shares, except that each class bears certain expenses unique to that class such as distribution and service fees, services to shareholders and certain other class-specific expenses. Differences in class-level expenses may result in payment of different per share dividends by class. All shares of the Trust have equal rights with respect to voting subject to class-specific arrangements.

The Fund’s financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) which require the use of management estimates. Actual results could differ from those estimates. The Fund qualifies as an investment company under Topic 946 of Accounting Standards Codification of U.S. GAAP. The policies described below are followed consistently by the Fund in the preparation of its financial statements.

Security Valuation. Various inputs are used in determining the value of the Fund’s investments. These inputs are summarized in three broad levels. Level 1 includes quoted prices in active markets for identical securities. Level 2 includes other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds and credit risk). Level 3 includes significant unobservable inputs (including the Fund’s own assumptions in determining the fair value of investments). The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities.

The Fund values all securities utilizing the amortized cost method permitted in accordance with Rule 2a-7 under the 1940 Act and certain conditions therein. Under this method, which does not take into account unrealized capital gains or losses on securities, an instrument is initially valued at its cost and thereafter assumes a constant accretion/ amortization rate to maturity of any discount or premium. Securities held

by the Fund are reflected as Level 2 because the securities are valued at amortized cost (which approximates fair value) and, accordingly, the inputs used to determine value are not quoted prices in an active market.

Disclosure about the classification of fair value measurements is included in a table following the Fund's Investment Portfolio.

Repurchase Agreements. The Fund may enter into repurchase agreements, under the terms of a Master Repurchase Agreement, with certain banks and broker/dealers whereby the Fund, through its custodian or a sub-custodian bank, receives delivery of the underlying securities, the amount of which at the time of purchase and each subsequent business day is required to be maintained at such a level that the market value is equal to at least the principal amount of the repurchase price plus accrued interest. The custodial bank or another designated sub-custodian bank holds the collateral in a separate account until the agreement matures. If the value of the securities falls below the principal amount of the repurchase agreement plus accrued interest, the financial institution deposits additional collateral by the following business day. If the financial institution either fails to deposit the required additional collateral or fails to repurchase the securities as agreed, the Fund has the right to sell the securities and recover any resulting loss from the financial institution. If the financial institution enters into bankruptcy, the Fund's claims on the collateral may be subject to legal proceedings.

As of March 31, 2023, the Fund held repurchase agreements with a gross value of \$339,500,000. The value of the related collateral exceeded the value of the repurchase agreements at period end. The detail of the related collateral is included in the footnotes following the Fund's Investment Portfolio.

Federal Income Taxes. The Fund's policy is to comply with the requirements of the Internal Revenue Code, as amended, which are applicable to regulated investment companies, and to distribute all of its taxable income to its shareholders.

At March 31, 2023, the Fund had net tax basis capital loss carryforwards of approximately \$73,000 of short-term losses, which may be applied against realized net taxable capital gains indefinitely.

The Fund has reviewed the tax positions for the open tax years as of March 31, 2023 and has determined that no provision for income tax and/or uncertain tax positions is required in the Fund's financial statements. The Fund's federal tax returns for the prior three fiscal years remain open subject to examination by the Internal Revenue Service.

Distribution of Income and Gains. Net investment income of the Fund is declared as a daily dividend and is distributed to shareholders monthly. The Fund may take into account capital gains and losses in its daily

dividend declarations. The Fund may also make additional distributions for tax purposes if necessary.

Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications to paid-in capital. Temporary book and tax basis differences will reverse in a subsequent period. There were no significant book-to-tax differences for the Fund.

At March 31, 2023, the Fund's components of distributable earnings (accumulated losses) on a net tax basis were as follows:

Undistributed ordinary income*	\$ 1,137,116
Capital loss carryforwards	\$ (73,000)

At March 31, 2023, the Fund had an aggregate cost of investments for federal income tax purposes of \$558,288,246.

In addition, the tax character of distributions paid to shareholders by the Fund is summarized as follows:

	Years Ended March 31,	
	2023	2022
Distributions from ordinary income*	\$ 15,953,898	\$ 233,429

* For tax purposes, short-term capital gain distributions are considered ordinary income distributions.

Contingencies. In the normal course of business, the Fund may enter into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet been made. However, based on experience, the Fund expects the risk of loss to be remote.

Other. Investment transactions are accounted for on trade date. Interest income is recorded on the accrual basis. Realized gains and losses from investment transactions are recorded on an identified cost basis. All premiums and discounts are amortized/accreted for both tax and financial reporting purposes.

B. Related Parties

Management Agreement. Under the Investment Management Agreement with DWS Investment Management Americas, Inc. ("DIMA" or the "Advisor"), an indirect, wholly owned subsidiary of DWS Group GmbH & Co. KGaA ("DWS Group"), the Advisor directs the investments of the Fund in accordance with its investment objectives, policies and restrictions. The Advisor determines the securities, instruments and other contracts relating to investments to be purchased, sold or entered into by the Fund.

Under the Investment Management Agreement with the Advisor, the Fund pays a monthly management fee based on the average daily net assets of the Fund, computed and accrued daily and payable monthly at the annual rate (exclusive of any applicable waivers/reimbursements) of 0.05%.

The Advisor agreed to voluntarily waive expenses. This voluntary waiver may be changed or terminated at any time without notice.

The Advisor agreed to maintain expenses of certain other classes of the Fund. These rates are disclosed in the respective share classes' annual reports that are provided separately and are available upon request.

For the year ended March 31, 2023, fees waived and/or expenses reimbursed for each class are as follows:

Capital Shares	\$	54
Institutional Shares		560,320
Investment Class Shares		187,122
DWS U.S. Treasury Money Fund Class S		53,328
		\$ 800,824

Administration Fee. Pursuant to an Administrative Services Agreement, DIMA provides most administrative services to the Fund. For all services provided under the Administrative Services Agreement, the Fund pays the Advisor an annual fee ("Administration Fee") of 0.097% of the Fund's average daily net assets, computed and accrued daily and payable monthly. For the year ended March 31, 2023, the Administration Fee was \$663,093, of which \$42,449 is unpaid.

Service Provider Fees. DWS Service Company ("DSC"), an affiliate of the Advisor, is the transfer agent, dividend-paying agent and shareholder service agent for the Fund. Pursuant to a sub-transfer agency agreement between DSC and SS&C GIDS, Inc. ("SS&C") (name changed from DST Systems, Inc. effective January 1, 2023), DSC has delegated certain transfer agent, dividend-paying agent and shareholder service agent functions to SS&C. DSC compensates SS&C out of the shareholder

servicing fee it receives from the Fund. For the year ended March 31, 2023, the amounts charged to the Fund by DSC were as follows:

Services to Shareholders	Total Aggregated	Unpaid at March 31, 2023
Capital Shares	\$ 53	\$ 9
Institutional Shares	183,168	31,441
Investment Class Shares	145,975	24,382
DWS U.S. Treasury Money Fund Class S	66,651	11,094
	\$ 395,847	\$ 66,926

In addition, for the year ended March 31, 2023, the amounts charged to the Fund for recordkeeping and other administrative services provided by unaffiliated third parties, included in the Statement of Operations under "Services to shareholders," were as follows:

Sub-Recordkeeping	Total Aggregated
Institutional Shares	\$ 399
Investment Class Shares	31,534
DWS U.S. Treasury Money Fund Class S	41,159
	\$ 73,092

Distribution and Service Fees. Under the Fund's Investment Class Shares 12b-1 Plan, DWS Distributors, Inc., ("DDI"), an affiliate of the Advisor, receives a fee ("Distribution Fee") of 0.25% of the average daily net assets of Investment Class Shares. For the year ended March 31, 2023, the Distribution Fee was as follows:

Distribution Fee	Total Aggregated	Unpaid at March 31, 2023
Investment Class Shares	\$ 506,068	\$ 42,185

In addition, DDI provides information and administrative services for a fee ("Service Fee") at an annual rate of 0.05% of the average daily net assets for the Institutional Shares and 0.07% of the average daily net assets for the Investment Class Shares. DDI in turn has various agreements with financial services firms that provide these services and pays these fees based upon the assets of the shareholder accounts the firms service. For the year ended March 31, 2023, the Service Fee was as follows:

Service Fee	Total Aggregated	Unpaid at March 31, 2023	Annual Rate
Institutional Shares	\$ 191,751	\$ 9,107	.05%
Investment Class Shares	141,699	11,812	.07%
	\$ 333,450	\$ 20,919	

Other Service Fees. Under an agreement with the Fund, DIMA is compensated for providing regulatory filing services to the Fund. For the year ended March 31, 2023, the amount charged to the Fund by DIMA included in the Statement of Operations under “Reports to shareholders” aggregated \$2,910, of which \$1,223 is unpaid.

Trustees’ Fees and Expenses. The Fund paid retainer fees to each Trustee not affiliated with the Advisor, plus specified amounts to the Board Chairperson and to each committee Chairperson.

C. Line of Credit

The Fund and other affiliated funds (the “Participants”) share in a \$375 million revolving credit facility provided by a syndication of banks. The Fund may borrow for temporary or emergency purposes, including the meeting of redemption requests that otherwise might require the untimely disposition of securities. The Participants are charged an annual commitment fee, which is allocated based on net assets, among each of the Participants. Interest is calculated at a daily fluctuating rate per annum equal to the sum of 0.10% plus the higher of the Federal Funds Effective Rate and the Overnight Bank Funding Rate, plus 1.25%. The Fund may borrow up to a maximum of 33 percent of its net assets under the agreement. The Fund had no outstanding loans at March 31, 2023.

D. Fund Share Transactions

The following table summarizes share and dollar activity in the Fund:

	Year Ended March 31, 2023		Year Ended March 31, 2022	
	Shares	Dollars	Shares	Dollars
Shares sold				
Institutional Shares	4,910,642,569	\$ 4,910,642,569	2,031,822,029	\$ 2,031,822,029

Account maintenance fees	—	2,434	—	2,681
		\$ (274,059,431)		\$ (874,100,774)

E. Money Market Fund Investments and Yield

Rising interest rates could cause the value of the Fund's investments — and therefore its share price as well — to decline. A rising interest rate environment may cause investors to move out of fixed-income securities and related markets on a large scale, which could adversely affect the price and liquidity of such securities and could also result in increased redemptions from the Fund. Increased redemptions from the Fund may force the Fund to sell investments at a time when it is not advantageous to do so, which could result in losses. Recently, there have been signs of inflationary price movements. As such, fixed-income and related markets may experience heightened levels of interest rate volatility and liquidity

risk. A sharp rise in interest rates could cause the value of the Fund's investments to decline and impair the Fund's ability to maintain a stable \$1.00 share price. Conversely, any decline in interest rates is likely to cause the Fund's yield to decline, and during periods of unusually low interest rates, the Fund's yield may approach or fall below zero. A low or negative interest rate environment may prevent the Fund from providing a positive yield or paying Fund expenses out of current income and, at times, could impair the Fund's ability to maintain a stable \$1.00 share price. Over time, the total return of a money market fund may not keep pace with inflation, which could result in a net loss of purchasing power for long-term investors. Interest rates can change in response to the supply and demand for credit, government and/or central bank monetary policy and action, inflation rates, and other factors. Recent and potential future changes in monetary policy made by central banks or governments are likely to affect the level of interest rates. Changing interest rates may have unpredictable effects on markets, may result in heightened market volatility and potential illiquidity and may detract from fund performance to the extent the fund is exposed to such interest rates and/or volatility. Money market funds try to minimize interest rate risk by purchasing short-term securities. If there is an insufficient supply of U.S. government securities to meet investor demand, it could result in lower yields on such securities and increase interest rate risk for the fund.

Report of Independent Registered Public Accounting Firm

To the Board of Trustees of Investors Cash Trust and Shareholders of DWS Treasury Portfolio:

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of DWS Treasury Portfolio (the “Fund”) (one of the funds constituting Investors Cash Trust) (the “Trust”), including the investment portfolio, as of March 31, 2023, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting Investors Cash Trust) at March 31, 2023, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust’s internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Trust’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of March 31, 2023, by correspondence with the custodian, brokers, and others; when replies were not received from brokers and others, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst + Young LLP

We have served as the auditor of one or more investment companies in the DWS family of funds since at least 1979, but we are unable to determine the specific year.

Boston, Massachusetts

May 24, 2023

Information About Your Fund's Expenses

As an investor of the Fund, you incur two types of costs: ongoing expenses and transaction costs. Ongoing expenses include management fees, distribution and service (12b-1) fees and other Fund expenses. Examples of transaction costs include account maintenance fees, which are not shown in this section. The following tables are intended to help you understand your ongoing expenses (in dollars) of investing in the Fund and to help you compare these expenses with the ongoing expenses of investing in other mutual funds. In the most recent six-month period, the Fund limited these expenses for DWS U.S. Treasury Money Fund Class S; had it not done so, expenses would have been higher. The example in the table is based on an investment of \$1,000 invested at the beginning of the six-month period and held for the entire period (October 1, 2022 to March 31, 2023).

The tables illustrate your Fund's expenses in two ways:

- **Actual Fund Return.** This helps you estimate the actual dollar amount of ongoing expenses (but not transaction costs) paid on a \$1,000 investment in the Fund using the Fund's actual return during the period. To estimate the expenses you paid over the period, simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the "Expenses Paid per \$1,000" line under the share class you hold.
- **Hypothetical 5% Fund Return.** This helps you to compare your Fund's ongoing expenses (but not transaction costs) with those of other mutual funds using the Fund's actual expense ratio and a hypothetical rate of return of 5% per year before expenses. Examples using a 5% hypothetical fund return may be found in the shareholder reports of other mutual funds. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period.

Please note that the expenses shown in these tables are meant to highlight your ongoing expenses only and do not reflect any transaction costs. The "Expenses Paid per \$1,000" line of the tables is useful in comparing ongoing expenses only and will not help you determine the relative total expense of owning different funds. If these transaction costs had been included, your costs would have been higher.

Expenses and Value of a \$1,000 Investment

for the six months ended March 31, 2023 (Unaudited)

Actual Fund Return	DWS U.S. Treasury Money Fund Class S
Beginning Account Value 10/1/22	\$1,000.00
Ending Account Value 3/31/23	\$1,019.31
Expenses Paid per \$1,000*	\$ 1.26

Hypothetical 5% Fund Return	DWS U.S. Treasury Money Fund Class S
Beginning Account Value 10/1/22	\$1,000.00
Ending Account Value 3/31/23	\$1,023.68
Expenses Paid per \$1,000*	\$ 1.26

* Expenses are equal to the Fund's annualized expense ratio for each share class, multiplied by the average account value over the period, multiplied by 182 (the number of days in the most recent six-month period), then divided by 365.

Annualized Expense Ratio

DWS U.S. Treasury Money Fund Class S	.25%
--------------------------------------	------

Tax Information

(Unaudited)

A total of 100% of the dividends distributed during the fiscal year was derived from interest on U.S. government securities, which is generally exempt from state income tax.

Please consult a tax advisor if you have questions about federal or state income tax laws, or on how to prepare your tax returns.

Other Information

Proxy Voting

The Fund's policies and procedures for voting proxies for portfolio securities and information about how the Fund voted proxies related to its portfolio securities during the most recent 12-month period ended June 30 are available on our Web site — dws.com/en-us/resources/proxy-voting — or on the SEC's Web site — sec.gov. To obtain a written copy of the Fund's policies and procedures without charge, upon request, call us toll free at (800) 728-3337.

Portfolio Holdings

Each month, information about the Fund and its portfolio holdings is filed with the SEC on Form N-MFP. The SEC delays the public availability of the information filed on Form N-MFP for 60 days after the end of the reporting period included in the filing. These forms will be available on the SEC's Web site at sec.gov. The Fund's portfolio holdings are also posted on dws.com as of each month-end. Please see the Fund's current prospectus for more information.

Advisory Agreement Board Considerations and Fee Evaluation

The Board of Trustees (hereinafter referred to as the “Board” or “Trustees”) approved the renewal of DWS Treasury Portfolio’s (the “Fund”) investment management agreement (the “Agreement”) with DWS Investment Management Americas, Inc. (“DIMA”) in September 2022.

In terms of the process that the Board followed prior to approving the Agreement, shareholders should know that:

- During the entire process, all of the Fund’s Trustees were independent of DIMA and its affiliates (the “Independent Trustees”).
- The Board met frequently during the past year to discuss fund matters and dedicated a substantial amount of time to contract review matters. Over the course of several months, the Board reviewed extensive materials received from DIMA, independent third parties and independent counsel. These materials included an analysis of the Fund’s performance, fees and expenses, and profitability from a fee consultant retained by the Fund’s Independent Trustees (the “Fee Consultant”).
- The Board also received extensive information throughout the year regarding performance of the Fund.
- The Independent Trustees regularly met privately with counsel to discuss contract review and other matters. In addition, the Independent Trustees were advised by the Fee Consultant in the course of their review of the Fund’s contractual arrangements and considered a comprehensive report prepared by the Fee Consultant in connection with their deliberations.
- In connection with reviewing the Agreement, the Board also reviewed the terms of the Fund’s Rule 12b-1 plan, distribution agreement, administrative services agreement, transfer agency agreement and other material service agreements.

In connection with the contract review process, the Board considered the factors discussed below, among others. The Board also considered that DIMA and its predecessors have managed the Fund since its inception, and the Board believes that a long-term relationship with a capable, conscientious advisor is in the best interests of the Fund. The Board considered, generally, that shareholders chose to invest or remain invested in the Fund knowing that DIMA managed the Fund. DIMA is part of DWS Group GmbH & Co. KGaA (“DWS Group”). DWS Group is a global asset management business that offers a wide range of investing expertise and resources, including research capabilities in many countries throughout the world. In 2018, approximately 20% of DWS Group’s

shares were sold in an initial public offering, with Deutsche Bank AG owning the remaining shares.

As part of the contract review process, the Board carefully considered the fees and expenses of each DWS fund overseen by the Board in light of the fund's performance. In many cases, this led to the negotiation and implementation of expense caps.

While shareholders may focus primarily on fund performance and fees, the Fund's Board considers these and many other factors, including the quality and integrity of DIMA's personnel and administrative support services provided by DIMA, such as back-office operations, fund valuations, and compliance policies and procedures.

Nature, Quality and Extent of Services. The Board considered the terms of the Agreement, including the scope of advisory services provided under the Agreement. The Board noted that, under the Agreement, DIMA provides portfolio management services to the Fund and that, pursuant to a separate administrative services agreement, DIMA provides administrative services to the Fund. The Board considered the experience and skills of senior management and investment personnel and the resources made available to such personnel. The Board also considered the risks to DIMA in sponsoring or managing the Fund, including financial, operational and reputational risks, the potential economic impact to DIMA from such risks and DIMA's approach to addressing such risks. The Board reviewed the Fund's performance over short-term and long-term periods and compared those returns to various agreed-upon performance measures, including a peer universe compiled using information supplied by iMoneyNet, an independent fund data service. The Board also noted that it has put into place a process of identifying "Funds in Review" (e.g., funds performing poorly relative to a peer universe), and receives additional reporting from DIMA regarding such funds and, where appropriate, DIMA's plans to address underperformance. The Board believes this process is an effective manner of identifying and addressing underperforming funds. Based on the information provided, the Board noted that, for the one- and three-year periods ended December 31, 2021, the Fund's gross performance (Institutional Shares) was in the 4th quartile of the applicable iMoneyNet universe (the 1st quartile being the best performers and the 4th quartile being the worst performers).

Fees and Expenses. The Board considered the Fund's investment management fee schedule, operating expenses and total expense ratios, and comparative information provided by Broadridge Financial Solutions, Inc. ("Broadridge") and the Fee Consultant regarding investment management fee rates paid to other investment advisors by similar funds (1st quartile being the most favorable and 4th quartile being the least favorable). With respect to management fees paid to other investment advisors by similar funds, the Board noted that the contractual fee rates

paid by the Fund, which include a 0.097% fee paid to DIMA under the Fund's administrative services agreement, were lower than the median (2nd quartile) of the applicable Broadridge peer group (based on Broadridge data provided as of December 31, 2021). Based on Broadridge data provided as of December 31, 2021, the Board noted that the Fund's total (net) operating expenses (excluding 12b-1 fees and/or shareholder administration fees, if applicable) were lower than the median of the applicable Broadridge expense universe (less any applicable 12b-1 fees) for Capital Shares (1st quartile), Institutional Shares (2nd quartile) and DWS U.S. Treasury Money Fund Class S shares (2nd quartile) and higher than the median of the applicable Broadridge expense universe (less any applicable 12b-1 fees) for Investment Class Shares (3rd quartile). The Board noted the expense limitations agreed to by DIMA. The Board also noted the voluntary fee waivers implemented by DIMA from time to time in recent years to ensure the Fund maintained a positive yield. The Board considered the Fund's management fee rate as compared to fees charged by DIMA to comparable DWS U.S. registered funds ("DWS Funds"), noting that DIMA indicated that it does not provide services to any other comparable DWS Funds. The information requested by the Board as part of its review of fees and expenses also included information about institutional accounts (including any sub-advised funds and accounts) and funds offered primarily to European investors ("DWS Europe Funds") managed by DWS Group. The Board noted that DIMA indicated that DWS Group does not manage any institutional accounts or DWS Europe Funds comparable to the Fund.

On the basis of the information provided, the Board concluded that management fees were reasonable and appropriate in light of the nature, quality and extent of services provided by DIMA.

Profitability. The Board reviewed detailed information regarding revenues received by DIMA under the Agreement. The Board considered the estimated costs to DIMA, and pre-tax profits realized by DIMA, from advising the DWS Funds, as well as estimates of the pre-tax profits attributable to managing the Fund in particular. The Board also received information regarding the estimated enterprise-wide profitability of DIMA and its affiliates with respect to all fund services in totality and by fund. The Board and the Fee Consultant reviewed DIMA's methodology in allocating its costs to the management of the Fund. Based on the information provided, the Board concluded that the pre-tax profits realized by DIMA in connection with the management of the Fund were not unreasonable. The Board also reviewed certain publicly available information regarding the profitability of certain similar investment management firms. The Board noted that, while information regarding the profitability of such firms is limited (and in some cases is not necessarily prepared on a comparable basis), DIMA and its affiliates' overall profitability with respect to the DWS Funds (after taking into account

distribution and other services provided to the funds by DIMA and its affiliates) was lower than the overall profitability levels of most comparable firms for which such data was available.

Economies of Scale. The Board considered whether there are economies of scale with respect to the management of the Fund and whether the Fund benefits from any economies of scale. In this regard, the Board observed that while the Fund's current investment management fee schedule does not include breakpoints, the Fund's fee schedule represents an appropriate sharing between the Fund and DIMA of such economies of scale as may exist in the management of the Fund at current asset levels.

Other Benefits to DIMA and Its Affiliates. The Board also considered the character and amount of other incidental or "fall-out" benefits received by DIMA and its affiliates, including any fees received by DIMA for administrative services provided to the Fund, any fees received by an affiliate of DIMA for transfer agency services provided to the Fund and any fees received by an affiliate of DIMA for distribution services. The Board also considered benefits to DIMA related to brokerage and soft-dollar allocations, including allocating brokerage to pay for research generated by parties other than the executing broker dealers, which pertain primarily to funds investing in equity securities. In addition, the Board considered the incidental public relations benefits to DIMA related to DWS Funds advertising and cross-selling opportunities among DIMA products and services. The Board considered these benefits in reaching its conclusion that the Fund's management fees were reasonable.

Compliance. The Board considered the significant attention and resources dedicated by DIMA to its compliance processes in recent years. The Board noted in particular (i) the experience, seniority and time commitment of the individuals serving as DIMAs and the Fund's chief compliance officers and (ii) the substantial commitment of resources by DIMA and its affiliates to compliance matters, including the retention of compliance personnel.

Based on all of the information considered and the conclusions reached, the Board determined that the continuation of the Agreement is in the best interests of the Fund. In making this determination, the Board did not give particular weight to any single factor identified above. The Board considered these factors over the course of numerous meetings, certain of which were in executive session with only the Independent Trustees and counsel present. It is possible that individual Independent Trustees may have weighed these factors differently in reaching their individual decisions to approve the continuation of the Agreement.

Board Members and Officers

The following table presents certain information regarding the Board Members and Officers of the Trust/Corporation. Each Board Member's year of birth is set forth in parentheses after his or her name. Unless otherwise noted, (i) each Board Member has engaged in the principal occupation(s) noted in the table for at least the most recent five years, although not necessarily in the same capacity; and (ii) the address of each Independent Board Member is c/o Keith R. Fox, DWS Funds Board Chair, c/o Thomas R. Hiller, Ropes & Gray LLP, Prudential Tower, 800 Boylston Street, Boston, MA 02199-3600. Except as otherwise noted below, the term of office for each Board Member is until the election and qualification of a successor, or until such Board Member sooner dies, resigns, is removed or as otherwise provided in the governing documents of the Trust/Corporation. Because the Fund does not hold an annual meeting of shareholders, each Board Member will hold office for an indeterminate period.

The Board Members may also serve in similar capacities with other funds in the fund complex. The number of funds in the DWS fund complex shown in the table below includes all registered open- and closed-end funds (including all of their portfolios) advised by the Advisor and any registered funds that have an investment advisor that is an affiliated person of the Advisor.
